

Song Guo received his Ph.D. in computer science from University of Ottawa, Canada. He has been with the School of Computer Science and Engineering, the University of Aizu, Japan, since 2007, where he is a Professor. His current research focuses on resource management in wireless networks. He has published over 230 papers in referred journals and conferences in these areas. He is a co-recipient of several best paper awards from IEEE and ACM conferences.

Dr. Guo currently serves as Associate Editor of IEEE Transactions on Parallel and Distributed Systems (TPDS) and IEEE Transactions on Emerging Topics in Computing (TETC). He is also in the editorial board of Wireless Communications and Mobile Computing, ACM/Springer Wireless Networks, etc. He has served on steering committee, organizing committee (as General Chair/Co-Chair, TPC Chair/Co-Chair, Symposium Chair/Co-Chair, etc.) and program committee for over 100 international conferences and workshops in computer and telecommunication networks. He is a senior member of both IEEE and ACM.
